The Next Generation of Media Rental Kiosk Is HERE!!!

FootSteps To ENTERTAINMENT

Offering.....

Join The Party

HIGH INVENTORY
DVDs and CDs
DOWNLOADS
24/7 COVENIENCE

How Does It Works?:

Revenue generation comes in many forms.

Disc Rentals:

The average disc rental kiosk generates several thousand dollars a year of "new" income. Whether you're an owner or a host site of a FTE kiosk you are involved in the decision on how to generate income, whether it is the rental price, value of the loyalty cards or the rental period. (The decision is based upon comparable sites in the area and your customer demographics.)

Pay As you Go Downloads:

FTE also features downloading capabilities. Movies, games, music and music videos are available to download onto your phone, or disc for purchase. We, as partners are not only making money from rentals, we are increasing our revenue through download sales.

Advertisement Sales:

Unlike most Media Rental Kiosk, FTE also features movie trailers and local and national advertisement sales in the upper screen. Mini-disc inserts are also available to increase your income through advertising dollars. Creating the potential of increasing your revenue 10 fold.

Features:

- Less than 2 ft sq
- Easy Downloads
